# AN IDEA THAT COMBINES FUNCTIONALITY AND AESTHETICS

Before and after a swim, on your return from the beach or after your run, your Formidra outdoor solar shower is waiting for you. As you enjoy it and let the water run over your shoulders, make sure you keep both feet on the shower base. This will prevent you from taking the dirt!

The Formidra shower base is a real added value to your outdoor shower installation. In Dark Coffee or Dark Grey, it blends perfectly with the ambiance of the space you have created. It is quickly installed on any flat surface and provides an efficient means of water drainage. The well-thought-out platform, with dimensions of 75x97 cm, offers a stable space where you can easily rinse yourself.

Dark grey
